Authorization for this examiner's amendment was given in a telephone interview with Frederick Vastine on 11/1/04.

The application has been amended as follows:

- 1) Claims 2 and 8-19 have been canceled.
- 2) In the specification, page 1, before the first line, following is inserted:  
- - This application is a 371 of PCT/EP00/03464, filed 4/17/2004.- -

2. The following is an examiner's statement of reasons for allowance: The closest prior arts are GB 1,246,236 or Gallagher et al. Rejection of various claims under 35 USC 102(b) are hereby withdrawn subsequent to applicants' argument and amendments. It is agreed with the applicants that GB'236 compounds do not fall within the scope of the instant claimed compounds. In the compound of formula (I) of the reference, the portion of the compound of the formula, Y of the instant claimed formula is different than that corresponds to the reference. In the instant claim, Y is hydroxyoligooxyethylene radical, as against dihydroxyoligooxyethylene in the reference. With regard to Gallagher reference, the reference fails to teach a method of treating textile fabrics for protecting from the UV radiation. Although, UV protection to the human skin is contemplated in the reference, the skin behaves differently than the textiles(it is

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
